

Healthy Hospitals. Healthy Communities.

Prairie du Chien Memorial Hospital's impact on the community.

Prairie du Chien Memorial Hospital (PDCMH) provides access to vital health care services 24 hours and day, seven days a week, 365 days a year, serving more than 16,735 outpatients.

In addition to providing quality health care, PDCMH also contributes to the local economy through the people we directly employ, the goods and services we purchase and the taxes we pay. PDCMH supports other local businesses through "multiplier effects" that are generated in three ways:

- The hospital's purchases create industry revenues for local businesses and "indirect" jobs and income for their employees.
- Employee purchases generate "induced" income and jobs for other businesses in the community.
- Wages and salaries are subject to federal, state and local taxes.

What is PDCMH's Impact on the Community?

- Provides jobs for 304 hospital workers and supports an additional 155 jobs created indirectly through hospital purchases and employee economic activity for a total of 455 jobs.
- Accounts for nearly \$41,034,557 in economic activity. The direct effect of Prairie du Chien Memorial Hospital is \$28,877,239 and includes revenues from services provided by the hospital.
- Contributes \$23,975,991 in total income to the community.

PDCMH also offers an array of special programs and activities to help meet the community's broader health and social needs. Our community programs include:

- Educational outreach, health screenings and support groups.
- Family Resource Center
- C.A.R.E.
